SPECIAL INTERESTS

- Technological applications in dentistry both in educational and clinical settings. I actively pursue understanding and applying technology to patient care and teaching. I have been using CAD/CAM technology since 1998.

- Evidence Based Dentistry. I am very interested in the application and integration of Evidence Based Dentistry in both teaching and patient care. I have attended the Evidence Based Dentistry Champions Conference and the weeklong training in Evidence Based Dentistry sponsored by the ADA Center for Evidence Based Dentistry.
- Teaching and Learning - Developing and expanding pedagogical techniques for clinical teaching
- Teaching and Learning - Remediation, How to identify and support students who are not maximizing their potential
- Faculty of Odontology, Port-au-Prince Haiti. I have been involved in a project to improve the infrastructure of the dental school in Haiti for a number of years. I have spearheaded a project to renovate their student clinic, preclinical laboratories, sterilization facilities and radiology clinic. I am currently working on a project to improve the electrical and water systems at the school. I have taken students to Haiti on external rotations.
- Deployed with the United States Hospital Naval Ship Comfort 2009
- Deployed with the United States Hospital Naval Ship Comfort 2010 - Haitian Earthquake Relief

Community Service

Trinity Wall Street Brown Bag Lunch Program

Prospect Park Conservancy Park Maintenance

God's Love We Deliver Kitchen Volunteer

PROFESSIONAL GOAL

- To grow as a dental educator, guiding young dentists to achieve excellence
