

Dr. Kimberley Farmer is a board-certified Obstetrician Gynecologist with over 25 years of experience in women's healthcare. She earned a bachelor's degree in biochemistry with a minor in African – American studies from Temple University in Philadelphia, PA. Her medical degree was obtained from the University of Arkansas for Medical Sciences (UAMS), where she also completed her residency in Obstetrics and Gynecology. Throughout her career, Dr. Farmer has practiced in various settings; including, as a solo practitioner within large medical groups and as a locum tenens physician working in multiple states. Her initial role as a locum doctor at Howard University Hospital ignited her passion for working with and teaching residents, which lead her to become a faculty member. Dr. Farmer is deeply committed to mentoring and training medical students and resident physicians while advancing women's health through both clinical practice and education. When not working, she loves exploring the world-having traveled to all seven continents. She also enjoys reading, water sports and spending quality time with her family.
