

**Salome Bwayo Weaver, Pharm.D., BCGP, FASCP**, is a professor of pharmacy practice in the Department of Clinical and Administrative Pharmacy Sciences at Howard University College of Pharmacy. She has been a member of the Howard University faculty since 2005, advancing through the ranks from assistant professor to associate professor and, in 2022, to professor. Weaver earned her Doctor of Pharmacy degree from Howard University and completed a postdoctoral oncology fellowship at the Howard University College of Pharmacy. She is a licensed pharmacist in the District of Columbia and Maryland and is board certified in geriatric pharmacy.

Weaver's academic and clinical work centers on pharmacy practice, geriatrics, oncology and patient-centered care, with a strong emphasis on improving outcomes for underserved populations. Her research includes clinical trials and funded projects addressing Alzheimer's disease, opioid safety, health disparities and innovative pharmacy education and training programs. She has served as principal investigator and co-investigator on numerous grants supported by agencies including the National Institutes of Health, the Health Resources and Services Administration and the Food and Drug Administration, reflecting her commitment to advancing clinical research and public health.

In addition to her research, Weaver is deeply engaged in teaching, mentorship and academic leadership. She has taught a wide range of courses in integrated therapeutics, pharmacy jurisprudence, health policy and geriatric pharmacotherapy, and has mentored pharmacy students through clinical rotations and research experiences. She currently serves as director of faculty development at the College of Pharmacy and has held multiple leadership roles, including coordinator and co-director of fellowship programs. Through her teaching, research and service, Weaver is dedicated to preparing future pharmacists to become skilled clinicians and advocates for their patients and the profession.
