

Ali Ramadan, M.D. is an associate professor of pathology at Howard University Hospital and currently serves as the Medical Director of the Clinical Laboratory, a position he has held since 2021.

Ramadan began his postgraduate medical training with a residency in Ophthalmology at Hadassah Medical Center from 1992 to 1995. He subsequently came to the United States, where he conducted research at the National Institutes of Health (NIH) and completed fellowship training in Uveitis and Ocular Pathology.

He later completed residency training in Anatomic and Clinical Pathology at Howard University Hospital, followed by a fellowship in Chemical Pathology at The University of Texas MD Anderson Cancer Center in Houston, Texas. In 2011, he joined the faculty of Howard University Hospital, where he was appointed to the Department of Pathology and has since advanced to the rank of Associate Professor.

An accomplished educator, Ramadan has played a major role in the training of pathology residents, ophthalmology residents, medical students, and dental students. He has taught Clinical Chemistry and Laboratory Management to pathology residents and Ocular Pathology to ophthalmology residents. He currently directs small-group General Pathology teaching to second-year medical students.

Ramadan has received numerous awards in recognition of his dedication to patient care, education, and leadership, including the Patient Care Award, Teaching Excellence Award, Faculty of the Year Award, and Leadership Award.

His academic interests include laboratory medicine, clinical chemistry, ocular pathology, and ophthalmic diseases. He has authored and co-authored several peer-reviewed publications in ocular diseases and pathology and has contributed a book chapter on ocular Toxoplasmosis.
